MEMORANDUM FOR MR. ROSTOW

6 (c)
3 4(b)(1), (3),
(6)

I thought you should be aware of the attached report indicating some Czech units [redacted]

The intelligence people (and I) would tend, at this point, to lean more towards this being an exercise than an actual combat status for the Czech units involved. We had indication last week that some Czech Army units were planning to participate in an exercise beginning today and lasting through Saturday.

Of course, we are covering all bets and attempting to get as much information on this as possible through all channels.

Art McCafferty
